FILE COPY

Buck Rose of Utah County called today. The County Attorney has a meeting with Farrell Larson scheduled for tomorrow (March 31). Buck was calling to find out what the status of the site was from DOGM's viewpoint. He had not yet received a copy of our letter to the operator. I told him we had sent a letter of Non-Compliance and briefly described the contents of the letter. A fax copy of the letter without the enclosures was sent to Buck.

Buck had recently talked with Pauline Pugh of Cedarstrom Calcite. The following information came out of that conversation. The disturbed area located near the highway and south of the currently active Larson quarry was Cedarstrom's property which was disturbed by Larson approximately 10-12 years ago for material to control the Jordan River. Larson placed a crusher at that site during that time without approval from Utah County. Also, the road cuts above the Larson operations which were described as old pre-law disturbances were created by Larson prior to the Act.

A COPY OF THIS HAS BEEN SENT TO THE FILE
